Several of us brought our dogs for a float trip on the Ruby/Horsethief section of the Colorado River (Loma to Westwater). This is a section with no rapids, no lifejacket requirement, and a wonderfully scenic float. Many families with small children float as well as those of us with dogs that we do not take on rivers with rapids. Yes, we even saw a boat with children (with lifejackets) and a crib strapped on the back with a child in it sipping on her bottle. We highly recommend this overnight trip for a fun and safe pet float.
